

Problem-Solution fit canvas 2.0

PURPOSE& VISION: Automate standard laptop procurement using ServiceNow Flow Designer to slash delivery times by 70% and guarantee Day-1 onboarding readiness.

Define CS, fit into	1. CUSTOMER SEGMENT(S) CS Primary: Enterprise Employees and Hiring Managers requesting standard hardware. Secondary: IT Operations, Procurement Teams, and IT Service Desk Agents responsible for fulfilling asset requests.	6. CUSTOMER CC Fixed IT budget and approval thresholds. Strict compliance, security, and hardware configuration requirements across different employee roles. Vendor inventory lead times and existing procurement contract constraints. .	5. AVAILABLE SOLUTIONS AS Manual Email & Spreadsheet Workflows: Approvals managed via email, tracked manually on Excel sheets, and manually ordered from suppliers. Custom Legacy Scripts: Ad-hoc custom code/scripts running background automations, which are fragile, difficult to maintain, and lack clear visibility.	Explore AS,
Focus on J&P, tap into BE, understand	2. JOBS-TO-BE-DONE / PROBLEMS J&P Jobs-To-Be-Done: Request standard laptops for new hires or hardware refreshes quickly and track fulfillment status in real time. Problems: Manual approvals and routing cause severe delays in onboarding. Procurement and IT teams spend excessive time doing manual entry across ServiceNow, ERPs, and vendor portals. Lack of visibility into order progress leads to frequent "Where is my laptop?" support tickets.	9. PROBLEM ROOT CAUSE RC Disconnected systems (HR, IT Service Desk, Vendor Inventory) operating in silos with no unified low-code automation layer to orchestrate approvals, ticket routing, and purchase orders automatically.	7. BEHAVIOUR BE Users frequently ping IT support agents directly on Slack/Teams for status updates due to lack of visibility. Managers delay approving requests or miss email notification approvals among high inbox volume.	Focus on J&P, tap into BE, understand
Identify strong TR & EM	3. TRIGGERS TR Employee Onboarding: HR submits a new hire request triggering a hardware requirement. Hardware Refresh Cycle: An employee's device reaches end-of-life (3–4 years). Device Damage/Failure: Urgent hardware replacement request submitted via the IT Service Portal.	10. YOUR SOLUTION SL An automated end-to-end procurement workflow built using ServiceNow Flow Designer: Automated Catalog Item: Self-service request form with pre-approved hardware configurations. Dynamic Approval Routing: Automatically routes approvals to line managers based on cost and employee level. Automated Fulfillment Flow: Automatically generates vendor purchase orders or assigns warehouse provisioning tasks upon approval. Real-time Integration & Notifications: Sends real-time status updates to users via Microsoft Teams/Slack and updates ITAM inventory automatically.	8. CHANNELS of BEHAVIOUR CH 8.1 ONLINE ServiceNow Service Portal, automated Microsoft Teams/Slack notifications, email approval links, IT Asset Management (ITAM) dashboards.	Extract online & offline CH of BE
	4. EMOTIONS: BEFORE / AFTER EM Before: Frustrated by long wait times, confused by opaque approval workflows, anxious about new hires starting without equipment on Day 1. After: Confident, delighted by seamless 1-click ordering, relieved by automated multi-stage notifications, and satisfied with fast delivery turnaround.		8.2 OFFLINE IT Helpdesk physical pickup centers, warehouse asset tagging/inventory handling
